

## Davis Vision Contact Lens Collections

This table reflects all current contact lens types supplied by Davis Vision (i.e. “plan supplied”) under our comprehensive benefit programs. When Plan supplied contact lenses are provided, Davis Vision pays a professional fitting fee to the participating provider. All other lens types are supplied by the provider according to the non-plan allowance. Please refer to the group specific Service Record Form on the Davis Vision Provider web page for applicable patient charges, copayments or allowance amounts and quantities dispensed.
