

The American with Disabilities Act (ADA) Attestation

Office Name (print): _____ Date: _____

Office Address: _____ Office #: _____

Provider Names (at this office): _____

❖ Please attach a provider listing if necessary

1. Does the office have at least one wheelchair-accessible path from an entrance to an exam room?
 Yes No
2. Examination tables and all equipment are accessible to people with disabilities.
 Yes No
3. If parking is provided, spaces are reserved for people with disabilities, pedestrian ramps at sidewalks, and drop-offs? Yes No
4. If parking is provided, are there an adequate number of parking spaces provided (8 feet wide for a car and 5 foot access aisle)? Yes No

Total Spaces	Accessible Spaces
1-25	1
26-50	2
51-75	3
76-100	4

5. For a provider with a disability-accessible parking space, is there a path of travel from the disability-accessible parking space to the facility entrance that does not require the use of stairs?
 Yes No
 - Is the path of travel stable, firm and slip resistant? Yes No
 - Except for curb cuts, is the path at least 36 inches wide? Yes No
6. Is there a method for persons using wheelchairs or that require other mobility assistance to enter as freely as everyone else? Yes No
7. Is that route of travel safe and accessible for everyone, including people with disabilities?
 Yes No
8. Does the main exterior entrance door used by persons with mobility disabilities to access public spaces meet the following standards:
 - 32 inches clear opening? Yes No
 - 18 inches of clear wall space on the pull side of the door, next to the handle?
 Yes No

DAVIS VISION

EYECARE REFRAMEDSM

- The threshold edge is no greater than ¼ inch high or if beveled, no greater than ¾ inches high? Yes No
 - The door handle is no higher than 48 inches high and can be operated with a closed fist? Yes No
9. Are there ramps to permit wheelchair access? Yes No
- If yes, complete the following 4 questions:
- Are the slopes of the ramp accessible for wheelchair access? Yes No
 - Are the railings sturdy and high enough for wheelchair access? Yes No
 - Is the width between railings wide enough to accommodate a wheelchair? Yes No
 - Are the ramps nonslip and free from any obstruction (cracks)? Yes No
10. If there are stairs at the main entrance, is there also a ramp or lift or is there an alternative accessible entrance? Yes No
11. Do any inaccessible entrances have signs indicating the location of the nearest accessible entrance?
 Yes No
12. Can the accessible entrance be used independently and without assistance?
 Yes No
13. Are doormats ½ inch high or less with beveled or secured edges?
 Yes No
14. Are waiting rooms and exam rooms accessible to people with disabilities?
 Yes No
15. The layout of the interior of the building allows people with disabilities to obtain materials and services without assistance?
 Yes No
16. The interior doors comply with the criteria set forth above regarding the exterior door?
 Yes No
17. The accessible routes to all public spaces in the facility are 31 inches wide?
 Yes No
18. There is a 5 foot circle or a T-shaped space for a disabled person using a wheelchair to reverse direction in public areas where services are rendered?
 Yes No
19. All buttons or other controls in the hallway are no higher than 42 inches?
 Yes No
20. Elevators in the facility meet the following standards:
- There are raised and Braille signs on both door jambs on every floor? Yes No

DAVIS VISION

EYECARE REFRAMEDSM

- The call buttons in the hallway are not higher than 42 inches? Yes No
 - The controls inside the cab have raised and Braille lettering? Yes No
21. Are sign language interpreters and other auxiliary aids and services provided in appropriate circumstances? Yes No
22. Is the public lavatory wheelchair-accessible? Yes No
23. With respect to the public restroom, the accessible route, the exterior door and the interior stall doors comply with standards set forth above for exterior doors? Yes No
24. There is at least one wheelchair accessible stall in the public restroom that has an area of at least 5 feet by 5 feet, clear of the door swing; OR there is at least one stall that is less accessible but that provides greater access than a typical stall (either 36 by 69 inches, or 48 by 69 inches)? Yes No
25. In the accessible stall of the public rest room there are grab bars behind and on the side wall nearest the toilet. Yes No
26. There is one lavatory in the public restroom that meets the following standards:
- 30 inches wide by 48 inches; deep bar space in front.
(A maximum of 19 inches of the required depth may be under the lavatory.) Yes No
 - The lavatory rim is no higher than 34 inches. Yes No
 - There is at least 29 inches from the floor to the bottom of the lavatory apron. Yes No
The faucet can be operated with a closed fist. Yes No
 - The soap dispenser and hand dryers are within reach and usable with one closed fist. Yes No
 - The mirror is mounted with the bottom edge of the reflecting surface 40 inches from the floor or lower. Yes No

I, _____, hereby attest that we are a provider that has a physical site at which FIDA Participants might possibly be physically present and that the answers provided are accurate. Also, I do hereby attest that I hold the authority to make these attestations.
