

DAVIS VISION

EYECARE REFRAMEDSM

Anti-Reflective Coatings (ARC) Collection Effective 6/25/2014

In order to best support each practitioner's judgment in providing the ideal ARC for an individual patient's needs, Davis Vision has implemented a tiered ARC formulary. The formulary is designed to provide premier products that fit a patient's needs with consumer recognized brands as well as new technologies to contribute to increased satisfaction with the overall eye care experience.

Under this formulary, members may receive any of the ARC enhancements within the tiers/categories for which they are eligible. The patient charges for each of these tiers may differ and is indicated on the group specific Service Record Form. The listing of all ARC enhancements within each tier is represented below.

Standard ARC	Premium ARC	Ultra ARC
Standard ARC	Essilor Crizal UV	Essilor Crizal Avance'
	ClearShield
