

# DAVIS VISION

EYECARE REFRAMED<sup>SM</sup>

## MEMORANDUM

To: Davis Vision Participating Providers  
From: Network Operations  
Date: May 21, 2014  
Re: Google Glass Coverage

---

As Google is increasing the marketing of this new product, Davis Vision would like to clarify its coverage of Google Glass orders.

Davis Vision's client contracts and policies standardly do not cover non-prescriptive eyewear and since most Google Glass orders are not prescriptive they would not be covered by our plans.

For any prescriptive Google Glass orders, Davis Vision will cover such prescriptive claims on an out-of-network basis according to each group's specific indemnity schedule.

Additionally, our manufacturing facilities will not accept orders for this product for any services and if received will be immediately returned and not liable for any damage or loss of product in the mail. Participating Davis Vision providers should utilize their own sources for supply of prescription Google Glass orders.

Please feel free to contact our Provider Services team at 1-800-773-2847 with any questions.
