## Questions about Excel Advantage

---

### What is "EXCEL ADVANTAGE"?

"Excel Advantage" is an exclusive program for Davis Vision providers. The program allows providers the opportunity to sell frames from the Davis Vision Collection to their private patients. Providers can also purchase safety frames and eyeglass cases through the Excel Advantage Program.

### What benefits does the Excel Advantage Program offer my practice?

The Excel Advantage Program allows you the opportunity to offer your patients additional frames to choose from, complementing your own selection. The frames have been tested for ophthalmic quality and makability. Frames can be returned for a full refund within 60 days of purchase.

### How is a retail price for the Davis Vision frames established?

Davis Vision never dictates provider frame pricing. Participation in the Excel Advantage Program allows the provider to purchase the frames from Davis Vision and determine their own retail prices.

### Is there a warranty policy for the frames?

The Excel Advantage replacement policy mirrors that of our vision care plan. Any frame may be returned for replacement within one year, as long as it's accompanied by its original invoice number.

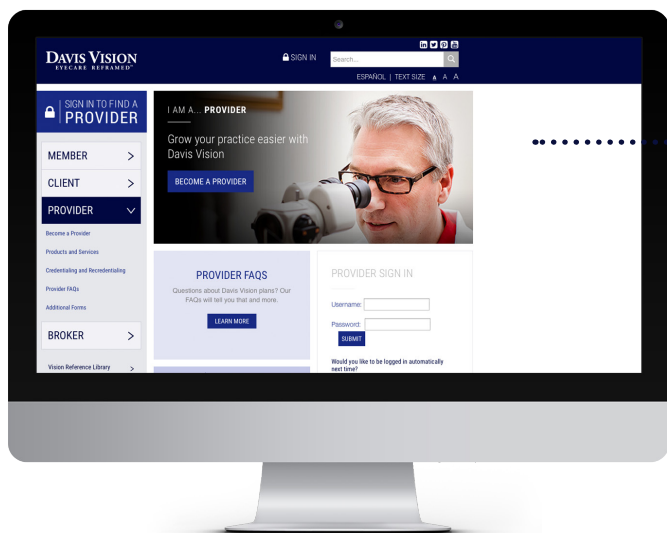

### Are there shipping costs?

Excel Advantage orders are never subject to additional shipping charges, there are no minimum order requirements, and most orders ship within 48 hours.
