2013 Davis Collection Inventory Return Policy

Dear Davis Vision Provider,

This memo is to provide clarification of the process for returning your Davis Vision Collection should your contract with Davis Vision terminate.

Should your contract with Davis Vision terminate, you are required to return back all inventory associated with the Davis Vision Collection. All returns require a Return Authorization Number (RAN). The RAN enables the proper reporting of the return of inventory to facilitate closing the agreement. Returns that do not have an RAN run the risk of not being recognized as your inventory. The result could be a bill to you for the full amount of the inventory because the return would not be recognized as your inventory.

To obtain the RAN and related materials, please contact the Professional Affairs department 90 days prior to terminating your services at 1-800-933-9371. The Professional Affairs department will coordinate return shipping boxes and prepaid return labels to arrive at your office. The label will be associated with a return authorization number so that the expected inventory can be processed correctly and return credit applied.

We appreciate your following the procedure outlined above.
