

DAVIS VISION

EYECARE REFRAMEDSM

MEMORANDUM

To: Davis Vision Participating Providers
From: Network Operations
Date: September 14, 2015
Re: Provider Supplied Specialty Frames

This important announcement is to let you know about a change required by Davis Vision. Our labs will no longer fulfill or receive requests for Oakley, Horn, Lindbergh and Google Glass specialty frames. However, participating Davis Vision providers may continue to request uncut lenses for these frames.

Due to the unique processing requirements and liability of these products, Davis Vision manufacturing will no longer be able to edge and insert lenses. Specifically, the following brands and types will be returned immediately to the sender:

Brand	Type	Reason
OAKLEY	PLASTIC WRAP SUNGLASS FRAMES	WRAP/NON-OPTICAL
HORN	ALL BONE MATERIALS	NO BONE FRAME MANUFACTURING
LINDBERGH	FRAMELESS DRILL-MOUNT	REQUIRES SPECIAL MANUFACTURING
GOOGLE GLASS	ALL	REQUIRES SPECIAL MANUFACTURING

If you have additional questions related to this memo or need further instruction for special uncut lenses orders, please contact our Provider Services team at 1-800-888-4321.

Thank you.
