What is a Davis Vision Member Identification Number?

When a Davis Vision Member contacts your office to schedule an appointment, the Member's current eligibility should be verified and authorization for the services being scheduled should be requested. After obtaining the Member's name, Member's identification number, and the Member's date of birth, you may verify Member eligibility via the Davis Vision Web Site www.davisvision.com or via the Interactive Voice Response (IVR) System. Both systems are available 24 hours a day, 7 days a week.

It is important to note the identification number provided by the Member should be the vision benefit Policyholder's number (i.e. the primary insured) and may be one of the following:

- A unique number provided by Davis Vision (if a Davis Vision ID card was received)
- A unique number provided by a Medical plan (if the vision coverage is through a Medical plan)
- A unique number provided by an Employer (i.e. payroll number, SSO, etc.)
- The Policyholder's Social Security Number

Should you have any questions regarding eligibility verifications and Member identification numbers, please contact Davis Vision at 800-77-DAVIS (32847).
